INDEPENDENT AUDITOR'S REPORT

To the Unit Owners of
Peel Standard Condominium Corporation No. 1090

Opinion

We have audited the financial statements of Peel Standard Condominium Corporation No. 1090 (the "Corporation"), which comprise the statement of financial position as at May 31, 2025 and the statements of operations and changes in fund balances of the general fund, reserve fund, and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the financial statements present fairly, in all material respects, the financial position of Peel Standard Condominium Corporation No. 1090 as at May 31, 2025, and the results of its operations and its cash flows for the year then ended in accordance with Canadian Accounting Standards for Not-For-Profit Organizations.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Corporation in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian Accounting Standards for Not-For-Profit Organizations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Corporation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Corporation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Corporation's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatements of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

(continued)

INDEPENDENT AUDITOR'S REPORT
(continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether material uncertainty exists related to events or conditions that may cast significant doubt on the Corporation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Corporation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

PEEL STANDARD CONDOMINIUM CORPORATION NO. 1090

Notes to the Financial Statements

May 31, 2025

---

1. Operations

Peel Standard Condominium Corporation No. 1090 (the "Corporation" or the "Entity") was registered in Ontario without share capital on December 21, 2020 under The Condominium Act, 1998.

The purpose of the Corporation is to manage and maintain the common elements (as defined in the Corporation's declaration and by-laws) and to provide common services for the benefit of the owners of the 355 residential units of the complex. For Canadian income tax purposes the Corporation qualifies as a not-for-profit organization which is exempt from income tax under the Income Tax Act.

2. Significant Accounting Policies

These financial statements have been prepared in accordance with Canadian accounting standards for not-for-profit organizations and are in accordance with Canadian generally accepted accounting principles, which are applicable to Ontario Condominium Corporations and Shared Facilities. The significant policies are:

a) Fund Accounting

The general fund reports common element fees from owners, budgeted allocations of those fees to other funds and expenses related to the operations and administration of the common elements.

The reserve fund is an externally restricted fund which reports the common element fees allocated to it and expenditures for major repair and replacement of the Entity's common elements and assets. The basis for determining the reserve fund's requirements is explained in Note 5. All major repairs and replacements of the common elements must be charged directly to the reserve fund with the exception of the cost of the reserve fund study which may be charged to the reserve fund. Minor repairs and replacements must be charged to repairs and maintenance of the general fund. The Entity segregates amounts accumulated for the purpose of financing future charges to the reserve fund in bank and investment accounts for use only to finance such charges. Interest earned on these amounts is included in the reserve fund.

b) Common Elements

The real property directly associated with the units of the Entity (the "common elements") are owned proportionately by the unit owners, and consequently are not reflected as assets in these financial statements.

c) Transfers

Transfers from the general fund to the reserve fund that are not included in the annual budget, or which are in excess of budgeted amounts, are not recorded in the operating section of the general fund, rather they are included in the related fund statement as additions or deductions, as applicable.

d) Financial Instruments

All assets and liabilities, with the exception of prepaid expenses, are financial instruments, and are initially recorded at fair market value and are subsequently recorded at amortized cost.

e) Measurement Uncertainty

The preparation of financial statements in accordance with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Areas of the financial statements subject to estimates include allowance for doubtful accounts, due from developer, due from related entities, accounts payable and accrued liabilities, and shared costs. Disclosures relating to commitments and contingent liabilities may also be subject to estimate. In addition, professional judgments are applied in determining the classification of certain expenses between the reserve fund and the general fund and assessing whether the net assets of the Corporation are sufficient for future purposes. Actual results could differ from management's best estimates as additional information becomes available in the future. Material uncertainties with respect to the adequacy of reserve fund net assets are described in Note 5.

f) Shared Facility

The purpose of the Downtown Erin Mills 3-Way Shared Facilities (the "3-Way Shared Facility") is to manage and maintain, on behalf of the member corporations, certain shared common elements (as defined in the reciprocal agreement) and to provide certain shared common services for the benefit of the owners of the member corporations.

g) Revenue Recognition

Common element fees are recognized as revenue on a monthly basis in the statement of general operations based on the budget distributed to owners each year.

Special assessments are recognized as revenue in the appropriate fund when a formal resolution declaring the assessment has been passed by the Board of Directors, and when the special assessment becomes receivable by the Entity from the owners.

Interest and other revenue are recognized in the appropriate fund when earned.

h) Contributed Services

Directors, committee members and owners volunteer their time to assist in the Entity's activities. While their services benefit the Entity considerably, a reasonable estimate of their amount and fair value cannot be made and, accordingly, these contributed services are not recognized in these financial statements.

3. Investments

Reserve fund and general fund investments are comprised of "eligible securities" which are defined in the Condominium Act, 1998 (the "Act"), as bonds, debentures, guaranteed investment certificates, deposit receipts or notes, or term deposits which are issued or guaranteed by the Government of Canada or any province in Canada, or are issued by an institution located in Ontario insured by the Canada Deposit Insurance Corporation or the Deposit Insurance Corporation of Ontario.

General fund investments have the additional feature that they must be convertible to cash within ninety days following a request by the Board of Directors. All investments are purchased with the intent that they will be held to maturity, and therefore are classified as long term, except for any general fund investments, which are classified as current due to their convertibility feature.

4. Due to/from Related Entities

Due from related entities is comprised as follows:

	2025	2024
3-Way Shared Facility	**$ 6,232**	$ 14,968
Peel Standard Condominium Corporation No. 1040	**-**	(7,661)
	$ 6,232	**$ 7,307**

5. Reserve Fund

The Corporation, as required by the Condominium Act, 1998 (the "Act"), has established a reserve fund for financing future major repairs and replacements of the Corporation's common elements and assets.

The Board of Directors has relied on a comprehensive reserve fund study prepared on July 15, 2025 by Sense Engineering Ltd. and such other information as was available to them in evaluating the adequacy of the reserve fund. The Board of Directors has accepted the recommendations of the study. The actual reserve fund contributions including transfers, if any, during 2025 were $385,078, which is consistent with the reserve fund study. The actual expenditures from the reserve fund were $57,069 compared to $41,000 estimated in the study. The closing reserve fund balance was $2,190,100 compared to $2,161,272 estimated in the study. Annual reserve allocations in the study increase by 27.2% for one year, increase by 53.1% for one year, increase by 24.6% for one year and then increase by 2.5% each year thereafter.

Any evaluation of the adequacy of the reserve fund is based upon assumptions as to the future interest and inflation rates and estimates of the life expectancy of the building components and their replacement costs. These factors are subject to change over time and the changes may be material; accordingly, the Act requires that reserve fund studies be updated every three years.

6. Budget

The budgeted figures, which are presented for comparison purposes only, are unaudited and are those approved by the Board of Directors in 2024.

7. Shared Facility

The Corporation is a member of the 3-Way Shared Facility, which is an unincorporated organization formed by agreement between the Corporation, PSCC 1040 and PSCC 1055. The purpose of the 3-Way Shared Facility is to facilitate the sharing of common services and facilities of the member corporations. The 3-Way Shared Facility is also responsible for maintaining the shared assets and its common elements.

The 3-Way Shared Facility is exempt from income taxes.

The Corporation is responsible for varying percentages of the operating costs of the 3-Way Shared Facility according to the reciprocal agreement as follows: (i) for all expenses including major repairs and replacements, but excluding shared garage costs, based on the number of units in each member corporation being PSCC 1040 (194 - 26.61%), PSCC 1055 (180 - 24.69%) and PSCC 1090 (355 - 48.70%), and (ii) their proportionate share of the expenses related to the shared garage costs based on the number of parking spots in each member corporation, being PSCC 1040 (220 - 24.83%), PSCC 1055 (222 - 25.06%) and PSCC 1090 (444 - 50.11%). The operating results of the 3-Way Shared Facility are included in the operating costs of the Corporation.

The 3-Way Shared Facility is required, under the reciprocal agreement, to have and maintain an adequate reserve fund. At May 31, 2025, the Corporation had an economic interest of $444,364, which amount represents the Corporation's proportionate share of the net assets of the 3-Way Shared Facility. Separate financial statements are available for the 3-Way Shared Facility.

8. Contractual Obligations

The Corporation has entered into contracts with various third parties to provide certain services to manage and maintain the common elements.

9. Related Party Transactions

No remuneration was paid to the Board of Directors during the year.

Management is reimbursed for certain administrative costs and paid a monthly management fee by the Corporation, and collects fees from owners, purchasers and others for issuing status certificates and/or lien notices, when applicable. These transactions were in the normal course of operations and were measured at the exchange amount.

10. Contingency

The Corporation has been named as a defendant in a legal claim commenced by Eddy Smart Home Solutions Inc. seeking damages of $120,345 for alleged termination costs related to a water leak technology agreement. The Corporation has retained legal counsel and is defending the action. The Corporation has recorded an expense of $120,345, which is included in accounts payable and accrued liabilities. Any adjustments based on the amount ultimately owing by the Corporation will be recorded in the period in which the matter is resolved.

11. Financial Instruments - Risk Management

Interest rate risk

Interest rate risk is the risk of potential financial loss caused by fluctuations in the fair value of future cash flow of financial instruments due to changes in market interest rates. The Corporation is exposed to this risk through its interest-bearing investments. The Corporation manages this risk through investing in fixed rate securities of short to medium term maturity and plans to hold the securities to maturity.

Credit risk

Credit risk is the risk of financial loss should a counter-party in a transaction fail to meet its obligations. The Corporation places its operating and reserve cash and investments with high quality institutions and believes its exposure to this risk is not significant.

Liquidity risk

Liquidity risk is the risk that the Corporation will not be able to meet its obligations as they become due. The Corporation manages this risk by setting common element fees at a level which ensures that the Corporation has sufficient cash available to pay the day to day operating costs, to fund the reserve fund in accordance with the Corporation's funding plan, and to fund all other funds, as required.

There has been no change to the risk profile of the Corporation during the year.

12. Comparative Figures

Certain reclassifications of the prior year's amounts have been made to facilitate comparison with the current year's presentation.

10.0 PERIODIC INFORMATION CERTIFICATES

The Chair advised that the periodic information certificates were attached to the Annual General Meeting package for the Owners' review.

11.0 OTHER BUSINESS

The Chair opened the floor for general and informal discussion and reminded all that questions should be focused on Corporation-wide issues.

Shirley Ting (Unit D-0603) noted that the water detection fee noted at last year's Annual General Meeting was only 30 cents/month, however, per the Operating budget, it was $24/month for each Unit. She noted that it was required by the existing by-law of PSCC 1090 to have the water detection monitoring service in place and inquired if there was a process to change or remove this by-law.
The Chair advised that the Board had to agree first to make changes or remove the by-law regarding the existing water detection monitoring system service and then call an official Unit Owners' meeting to change or remove the existing by-law, however, it would require at least 2/3rd of total Unit Owners to vote in favour to repeal the by-law. The Chair explained the process.

Antonio Toureiro (Unit C-1807) noted that the roundabout near 4677 and 4699 Glen Erin Drive was coming apart and suggested paving it.
The Chair advised that the second repair to the roundabout near 4677 and 4699 Glen Erin Drive was under review by an independent Engineer retained by PSCC 1090 and was being addressed with the Developer.

Rubina Esmail (Unit D-1209) inquired about the status of the damaged interlocking at the building's front entrance.
The Chair advised that the Board was already working with the Developer to address these deficiencies at no cost to PSCC 1090.
Rubina Esmail (Unit D-1209) noted that the garbage room light had not been working for the past couple of years.
The Chair advised that the Board would discuss the garbage room light issue at a Board meeting.

Miguel Alfonso Carino (Unit C-1103) inquired about the rationale of a monthly fee for the water sensor monitoring system in place.
The Chair advised that the Developer had entered the water sensor monitoring service in the Declaration and individual Unit Owners were not allowed to opt out of the contract. The Board was looking for possible options to address this matter.

Gordon Robinson (Unit D-0109) emphasized having a full parking enforcement in place, as currently there were several unauthorized vehicles being parked at the building in the wrong parking spots.
The Chair advised that any unauthorized parking in the underground parking spots should be reported to Management immediately to take action against the violators.
I. Luli noted that the building's security staff patrolled the parking spaces at regular intervals to check for any unauthorized parked vehicles and called the City of Mississauga immediately to issue parking tickets. The security staff was maintaining a record of unauthorized parked vehicles with the action taken against them.

Miguel Alfonso Carino (Unit C-1103) inquired if the water detection system service in place was helping to reduce the insurance premium for individual Unit Owners.
The Chair advised that the water detection system service was not helping to reduce individual Owners' insurance premium, however, it certainly helped the Corporation reduce its insurance premium.
Miguel Alfonso Carino (Unit C-1103) inquired about the rationale of the discrepancy between common element fees contributed by Units of different sizes and noted that the Units of a smaller size were paying the higher common element fees.
The Chair advised that the Developer had set the common element fee contribution for each Unit and the Board and Management had no power to change the contributions for a Unit. However, it could be rectified by changing the Declaration, which would require approval of at least 90%, plus one (1) Unit Owners.

Rita M. Venantius (Unit C-0501) inquired if the Board could consider installing a stop sign at the visitor paring exit to allow drivers to check if any cars were coming out of the underground parking area to prevent an accident.
The Chair advised that it was 3-Way Shared Committee issue and was to be taken up by the PSCC 1090 representative at the 3-Way Shared Committee meeting.
Rita M. Venantius (Unit C-0501) inquired if the Corporation would allow Unit Owners' kids/grand kids to access the pool.
I. Luli advised that only on-site Residents were allowed to access the pool.
The Chair noted that the restriction was imposed to make the pool area accessible to all the building's Residents and prevent overcrowding. However, it was 3-Way Shared Committee issue and could be taken by the PSCC 1090 representative at 3-Way Shared Committee meeting.

Patricia Chang (Unit D-1407) inquired about the steps taken by the Corporation to make sure that the lint traps in the laundry room were being regularly cleaned by Residents.
D. Fraser noted that Management had already posted notices in the building to remind Residents about the lint trap cleaning, and it was also added to the welcome package for new Owners and Residents.
The Chair suggested that all Owners have their Unit inspected once a year and arrange the lint trap cleaning on a regular basis to avoid any fire hazards.
A. Pires suggested off-site Owners remind their Tenants to arrange the lint trap cleaning on a regular basis to prevent any untoward incidents at the property.

The Chair thanked everyone for participating in the meeting. The Chair noted that any unanswered questions/comments would be addressed by Management separately.

12.0 ADJOURNMENT OF MEETING

The Chair, on behalf of the Board of Directors, thanked Owners for attending, and called for a motion to terminate the meeting.

*On a **MOTION** by Sorin Simion (Unit C-0910), **seconded** by Inez Ayres (Unit C-1501), **it was resolved** to terminate the Annual General Meeting of the Owners of Peel Standard Condominium Corporation No. 1090 at 8:38 p.m. as there was no further business to discuss.*

***The motion was carried**.*

VIRTUAL MEETING HANDBOOK

Now that you have been invited to join your condominium corporation's virtual meeting, we would like to provide some clear instructions to enable you to actively participate in this event.

We will be covering all the required activities including:

1. How to connect to the meeting using a personal computer, smart phone, or tablet.
2. Putting up your hand as a mover or seconder for a motion.
3. Voting on a motion.
4. Registering your vote in a live election
5. Asking questions
6. How to connect without a computer, by regular telephone.

1. To connect to a zoom meeting, you must first ***install the Zoom application***.
   a. On the **PC** go to zoom.us/download and select "Zoom Client for Meetings".
   b. On an **iPhone** or iPad go to the App store and find "Zoom Cloud Meetings".
   c. For an **Android** go to the Google Play Store and find "Zoom Cloud Meetings".

   This software is free to download and run, you can even host your own meetings of up to 100 of your closest friends but the meeting time will be limited to 40 minutes in the free version. You can create a free Zoom account. However, make sure you use the same email address that has been provided to your property manager.

   iHost-IT will ***pre-register owners to the meeting*** using the email address provided by your property manager. An email will be sent to that address with a link to the online (Zoom) meeting.

To join the meeting, just click on the link in the email, and once you are in the Zoom meeting entry page, complete the required fields including your unit number and you will enter the meeting. Note that once you have received the meeting link you are registered!

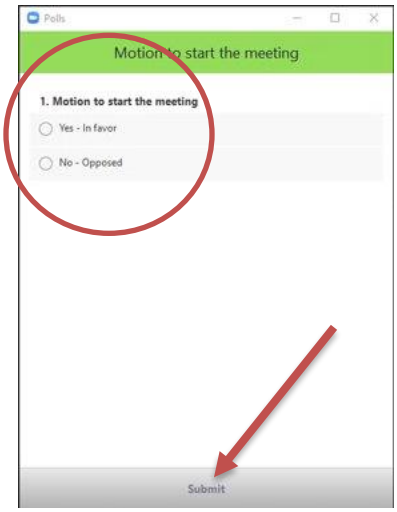
You can add the meeting link to your favorite calendar system so it will be easy to find on the day of the meeting. We will also be sending a reminder email to all registered attendees about 1 hour before the meeting to make sure it will be easy to connect. If you have problems connecting please send an email to info@iHost-IT.com.

On ***meeting day,*** you just click on the meeting link (log in) that you received, and the meeting will launch. You can log in up to 30 minutes before the start of the meeting. If you see “waiting for host to start” that just means you are a little early, you can stay on that screen and wait for the meeting to start. When the meeting starts you will see instructions move across the screen, and possibly even some music to give you information until the meeting starts. You won’t hear any voices until the meeting start time. Once the meeting has started you will see and hear the Chairperson start the meeting.

2. ***Putting up your hand*** as a mover or seconder for a motion is the first thing you will be asked to do. You will see 3 icons on your screen,

You click/tap the “Raise Hand” icon once and your hand is raised (the hand will turn blue), you click it again and your hand goes down. Don’t worry about leaving your hand up, the moderator will lower all hands before the next motion is called. *(you may have to press the “ESC” key or tap the screen to make the icons appear)*

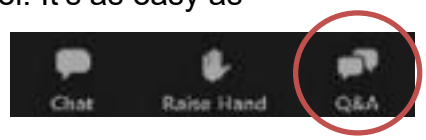
3. ***Voting on a motion*** is the next activity. Once the mover and seconder have been registered by the minute taker, you will see a small box appear with two options. Simply click “Yes - In Favor” or “No - Opposed” to register your vote. Once you are happy with your selection click or tap “Submit” at the bottom of the motion screen.



4. **Registering your vote in a live election** is the next step. Due to the legal restrictions of director or by-law voting, we use a voting system outside of Zoom. You will be required to minimize the Zoom window and go to your email when you are advised that voting has started. The email will come from iHost-IT and will look like this:

Open up your email and you will see a link to enter your vote, click on the link to enter the voting page. Here you will enter your selections for Director or By-Laws if applicable. If you already entered a paper or electronic proxy you do not have to vote (unless you want to make a change) but every attendee will receive a link. If you had previously entered a proxy and participated in the live that is the vote that will count and your proxy will be voided.

5. **Asking questions** is the way to interact with the panel. It’s as easy as clicking/tapping on the Q&A icon. A window will pop up for you to type in your question and select “Send”. The iHost-IT resource will be monitoring questions and addressing any technical issues, questions for the auditor will be addressed following the presentation of the financial statements, and questions for the board will be addressed near the end of the meeting.



6. **How to connect without a computer, by regular telephone**. There are 2 local numbers (647 374 4685 or 647 558 0588) that you can use to connect, although you won’t be able to participate in votes, motions, or Q&A. We encourage you to fill out an electronic or paper proxy ahead of time, and to submit it before the deadline set out in the Notice of Meeting, to make sure

your voice is heard. You will also need the meeting number and password which will be provided to you.
